QXLabel delivers a unique and unrivalled turnkey White Label Brokerage package that includes everything you need to operate a Forex brokerage. Using state-of-the-art technologies, top liquidity, award-winning platforms and a suite of web-based management systems that are integrated under one complete package, your QXLabel will empower your business to become a leading Forex and CFDs brokerage and reach its full potential.

QXLabel delivers a world-class A-Z of tools to operate a successful Forex brokerage with no complications, efficiency and speed. This stand-out solution is guaranteed to save time and money whilst still delivering you with the highest standards and a platform to quickly grow.

QXLABEL

WHITE LABEL BROKERAGE PACKAGE

Quantix Financial Services Limited is a regulated Financial Services provider with unrivalled experience and knowledge of how to manage a successful Forex brokerage.

Through our flagship product the **QXLabel** (a complete White Label solution), we are confident that our all-in- one offering will allow you to penetrate the markets, with minimal resources and maximise your revenues immediately.

What are the Advantages of using the QXLabel?

The **QXLabel** delivery set will include all of the critical client-facing tools that you will need to operate a successful brokerage including a branded website, MT4 platforms, members area and multiple deposit/withdrawal options.

Cutting-edge technology, leading tier-1 liquidity providers and award winning trading platforms hosted at Equinix LD4 provides your clients a stable, reliable and highly competitive trading environment.

The **QXLabel** also includes a range of back office management tools and services for your operation to support your activities under the broker agnostic model whether A-Book, B-Book or a Hybrid options.

Becoming regulated is a very expensive and draining process, with **QXLabel** you will benefit from a shared licensed solution with no paid-up capital requirements and no regulatory reporting which is handled entirely by Quantix.

Your **QXLabel** can be fully customised to suit your vision, from the look-and- feel of your website, to your trading accounts structure and the additional tools available that can bring additional revenue streams to your business.

QXLabel is the only White Label product to deliver a complete solution that will empower your business with everything required to set up and manage a brokerage brand, with zero costs to generate revenues immediately.

The products value speaks for itself and is available for proven partners with a successful track record of working within the lucrative Forex industry.
