Yadix offers a unique and bespoke partnership product that has been designed to offer high-performance IBs and affiliates the platform, tools and support to upgrade their earnings by working with a leading Forex broker. By using state-of-the-art technologies, top liquidity, award-winning platforms and a range of management systems, your XLocal IB relationship will empower you to take your introducing business to the next level.

Since 2010, Yadix has been at the forefront of the Forex markets and now offers selected partners the chance to represent the broker in their region with a localised site, access to the company infrastructure and most importantly the ability to work with a high percentage profit sharing partnership using a choice of business models to boost client acquisition, retention and profitability.

XLOCAL

LOCLAISED IB & AFFILIATE PACKAGE

Yadix is a regulated Forex Broker with unrivalled trading conditions, order execution and is backed by a management team with a complete understanding of how to succeed in the Forex markets.

Through our bespoke product the **XLocal** (a complete IB and Affiliate solution) our partners can benefit from an introducing relationship that can accelerate their business and maximise profitability immediately.

What are the Advantages of using the XLocal?

The **XLocal** delivery set will include a range of unique tools and features that will allow you to partner with us as a local representative and benefit from a fully transparent and high earning partnership.

Approved partners will benefit from a website in their local language, promotions designed by the partner for maximum conversion and a high profit percentage to ensure the work is fully rewarded.

XLocal includes a range of management tools and services for your business to support your activities under the IB agnostic model for full transparency and the ability to manage your business efficiently.

Your profitability depends on you, each selected partner will have the ability to use existing accounts or create new accounts with a mark up to maximise profitability and design promotions to attract more new depositors.

XLocal can also fully customised to suit your local markets, from the look-and- feel of your website, to your trading accounts structure and the additional tools available that can bring additional revenue streams to your business.

XLocal is the only partnership product that can deliver a complete solution that will empower your business with everything required to boost your profitability with the full support from the brokers marketing resources, technology set-up and expertise to help you generate extra revenue immediately.

The **XLocal** product will open up multiple new and profitable opportunities for your business and with the help of an established and respected broker your marketing efforts will be more lucrative.
