Stop Out	50%

3. Classic Account

3.1. *Spreads & Commissions*

Symbol	Min Spread	Average Spread	Min Order Size	Commission	Max Leverage	Contract Size	Pip Value
SILVER	4	6	0.1	0	1:500	1000 Ounces	10USD
GOLD	40	60	0.1	0	1:500	100 Ounces	1USD
GOLDEUR	50	70	0.1	0	1:500	100 Ounces	1EUR

3.2. *Classic Account Conditions*

Spreads	Variable
Execution Flow	STP
Stops Limits & Levels	ZERO (0)
Minimum Lot Size	0.01
Maximum Lot Size	1,000
Minimum Step	0.01
Hedged Margin	0
Hedging Allowed	Yes
Scalping Allowed	Yes
HFT Allowed	Yes
Margin Call	100%
Stop Out	50%

4. Important Information

4.1. *Commissions*

Commissions apply for Precious Metal Trading on ECN Accounts: Scalper \$/€14, Pro \$/€12, per round lot traded. The Classic account has no commissions.

4.2. *Precious Metals Leverage & Margin*

Leverage for Commodities trading is up to 1:500. To effectively display the movement of profit/loss on Indices, the Company has established a minimum/incremental trade size as detailed above. Margin required is calculated in the Currency the Instrument is denominated in.

4.3. *Trading Hours*

Gold and silver trading is available on the Yadix platform from 00:00 (Market Watch Time) Sunday till 00:00 (Market Watch Time) Friday. Gold and Silver trading follows CME holiday closures.

4.4. *Precious Metals Contract Sizes*

Trading of gold and silver is executed in lots.

1 lot traded of gold = 100oz

1 lot traded of silver = 5000oz

4.5. *Precious metals Pricing*

Gold and silver quotes are similar to Forex. Gold is traded against the US dollar or the EUR value and is displayed as XAU/USD or XAU/EUR.

Silver is displayed as XAG/USD. Spot prices for Gold and Silver are the equivalent in US dollars per troy ounce. Therefore, for a price quote of XAU/USD 1299.50, 1oz of gold is equal to \$1299.50

4.6. *Precious Metals Profit & Loss*

When trading Gold, 1 lot is 100 troy ounces and Silver is 5000 troy ounces. Therefore, the smallest price increments are equal to the troy ounce equivalent in USD.

4.7. *Precious Metals- Calculating Margin*

Using leverage of 1:100 and example pricing trading one lot

XAU/USD - Price (1299.50) x Contract Size 1 lot (100 oz) / Leverage (100) = \$1299.50

XAG/USD - Price (20.57) x Contract Size 1 lot (5000 oz) / Leverage (100) = \$1028.50.
